EE/CprE/SE 492 WEEKLY REPORT XY

End of 491 - February 27

Group number: 38

Project title: Orgifi

Advisor: Mai Zheng

Team Members/Role:

- *Tabe Ekpombang - Backend Developer*
- *Hongwei Wang - Communicator & Frontend Developer*
- *Perry Ports - Backend Developer*
- *Mohammed Abdalgader - Frontend & WebSocket developer*
- *Adin Huric - Backend Developer*
- *Dino Huric - Frontend Developer*
- *Hunter Barton - Project Manager and UX/UI developer*

o **Weekly Summary**

The team made various updates and improvements across different aspects of the project. One member focused on connecting the backend with the organization's interface, updating the organization page, and refining the "Create Organization" button. Another worked on the design document outline and the organization details dropdown. Login and logout issues were addressed, along with adding user IDs. The calendar and organization ID were integrated, while front-end web socket functionality was developed. Lastly, the calendar was merged into the main branch, with necessary modifications made to ensure proper integration and functionality.

o **Past week accomplishments**

- Hongwei Wang: Connect with the Organization's backend. Update the User Interface of the organization page. Working on the user interface of the "Create Organization" button and page.
