

# Orgifi

Team 38

Hunter, Perry, Hongwei, Tabe, Mohammed, Adin, Dino

Client /& Advisor: Mai Zheng

# Project Overview

- Orgify aims to be a website to find and manage clubs or small organizations
- Current options are clunky or lack important features
- Example users include organizers of intramural sports clubs, or people who moved to a new area and are looking for hobbies

# Well Ideals Professional Responsibility: Communication Honestly

- Communication honesty is particularly relevant because our project spans both technical (backend, frontend) and user-experience aspects, requiring clear and truthful updates to ensure alignment among developers, and users
- Transparent Reporting
  - All progress reports from UI/UX mockups to backend implementation
  - Any delays or difficulties in meeting the technical requirements
- Integrity in Deliverables
  - Honest communication ensures the project is developed with realistic expectations, building trust between developers.

# Well Ideals Professional Responsibility Not Performing Well In: Health, Safety and Well being.

- This is crucial for our project as we want to make sure the community is a safe and reliable place for our users and try to help fight against cyber bullying and scams. Also, incorporating website accessibility for those with needs.
- Our team hasn't yet decided on how to fight these issues specifically or discussed how to incorporate website accessibility.
- Change approach by;
  - Including and enhancing accessibility.
  - Have resources for promoting user wellbeing or where they can report issues and give feedback.

# Broader Context Area-Four Principles chart

Area	Beneficence	Nonmaleficence	Respect for Autonomy	Justice
<b>Public Health, Safety, and Welfare</b>	Orgifi connects people with clubs that improve social life, and bring the community together.	The platform avoids exposing users to any harm by implementing cybersecurity measures to protect users data.	Users can search, join, and leave clubs based on their preferences.	Features ensure equal access to all users.
<b>Global, Cultural, and Social</b>	Encourages inclusivity by providing resources for clubs tailored to different social groups.	Does not exclude or prioritize cultural practices. Making sure no harm to diverse groups.	Respects cultural differences by allowing clubs to set their own guidelines, while ensuring global usability and comply with ethical standards.	Orgifi ensures fairness by making all tools accessible and easy to use for people from diverse cultural and social backgrounds.
<b>Environmental</b>	Promotes digital engagement rather than physical paperwork, reducing environmental footprint.	Limites environmental impact by focusing on eco - friendly hosting, and reducing server energy consumption.	Users can opt in for digital communication. Limiting mail sent and less paper-waste.	Ensures that the platform is hosted on energy efficient servers, reducing carbon emission and environmental impact. While keeping the service affordable for all users across all regions,
<b>Economic</b>	Creates opportunities for users to engage in networking, potentially leading to career and economic growth.	Avoids any financial exploitation by offering affordable services and transparent pricing with no hidden fees.	Orgifi offers customizable features and subscription plans to accommodate to all users with different budgets, ensuring financial accessibility for all users.	Offers fair pricing structures that do not exclude low income groups and distributes benefits equally, such as free tier access.

# Public Health, Safety, and Welfare (Beneficence)

## Relevance to the Project:

- Orgifi connects people with clubs that enhance social life and foster community engagement.
- Helps reduce social isolation and improve overall public well-being.

## How the Team Addresses This Area:

- Developed features to easily discover and join clubs.
- Ensures the platform is accessible and user-friendly for diverse groups.

## Why This Approach Upholds Ethical Responsibilities:

- Promotes **beneficence** by improving users' quality of life through meaningful social connections.
- Contributes to community welfare by empowering clubs to grow and thrive.

# Potential Ethical Issues

- Ensuring that the platform is a safe place for any and everyone
- Website being used for cyberbullying or spread of misinformation
- Presents a clear autonomy of users terms and services
- Privacy: have a clear privacy policy to ensure users data isn't being sold

Thank You

**Orgifi**
